PROFILE

.NET developer with nearly 4 years of experience designing, building and maintaining enterprise applications. I work across the full project cycle: analysis, development, migration of legacy applications and production deployment on Microsoft Azure. My core is the backend — C#, ASP.NET Core, REST APIs and SQL Server — with deployments on App Services, Functions and CI/CD pipelines.

PROFESSIONAL EXPERIENCE

Accenture

December 2022 — Present

Packaged App Development Analyst

- Design, development and maintenance of enterprise applications.
- Building solutions with ASP.NET and .NET technologies.
- Integration with SQL Server databases.
- Deployment and release of applications on Microsoft Azure.
- Working with Azure App Services, Azure Functions and cloud resources.
- Integration of artificial intelligence solutions.
- Migration of servers, databases and applications across environments.
- Application of clean architectures and design patterns.
- Collaborative work within development teams.

TECHNOLOGY STACK

Backend	C#, .NET, .NET Core, ASP.NET, ASP.NET Core, ASP.NET MVC, REST APIs, Entity Framework, Hibernate, Microservices
Frontend	JavaScript, React, Razor, HTML, CSS
Databases	SQL Server, SQL, Entity Framework
Cloud & DevOps	Microsoft Azure, Azure App Services, Azure Functions, Cloud Deployments, CI/CD, Azure Pipelines
Artificial intelligence	Artificial Intelligence, Agentic AI, AI Integration
